**Input Selection**

**Guest Laptop Mirroring Shortcut Keys**
Most laptops will project an image to a secondary display immediately, when connected. If the projection is not automatic, certain shortcuts or keystrokes may be necessary:

Windows XP and Windows Vista®: Fn+Function
Windows 7 and 8: Windows+P to bring up a toggle menu to select Duplicate.
Macintosh: CMD+F1 to Mirror

Consult your computer user's guide for specific information on your computer.

Microphone Control Pop Up Menu

Access this menu from the main menu button "Microphone Control".

A Shure wireless microphone is provided in the room, and should already be synced with the system. Please return it to the charger after use.

A Mipro receiver is in the room for use with Mipro-brand transmitters brought in by guests.

2 Choir mics hang from the ceiling to offer another Tegrity recording option. These mics only sends audio to the Tegrity line.

A 3.5mm audio cable is provided for microphone audio output to a guest laptop for Tegrity recording purposes.

Camera Control Pop Up Menu

Two cameras are installed in the room.

Access the camera controls by holding down the camera buttons on the main menu.

The selected camera also feeds to the room PC for Tegrity recording.
